TROSIFOL® COLOUR

TROSIFOL® COLOUR is a PVB film for coloured laminated safety glass. The 13 standard colours offer completely new options with excellent colour stability suitable for use in both indoor and outdoor applications.

The colours can be combined to create an almost unlimited number of colour shades. Moreover, any individual colour can be prepared on request.

TROSIFOL® COLOUR is available PE-interleaved in the standard widths 1000 mm, 1600 mm and 2250 mm, with a thickness of 0.38 mm. The roll lengths are 30 m and 200 m.*

The price depends on the amount ordered. Please contact us for an individual quotation.

* Additional widths of 800/1200/1400/1800/2000 mm are available if purchased in amounts of at least 500 m² per colour type (200 m roll length only).
